

COMPLETE GUIDE TO LATE-MODEL ENGINES FOR MUSCLE CARS

ENGINE SWAPS

MODERN V8 ENGINES FOR STREET MACHINES

Car Craft presents **Engine Swaps**, a newsstand only special issue (SIP), that is loaded with information on installing the newest and most powerful high-tech GM, Ford and Chrysler engines into the classic body styles of the muscle car era.

This special issue includes detailed step-by-step photography, dyno session data and information on how to build and modify new Mustang, Camaro and Challenger engines with factory and aftermarket parts. Readers will find complete technical data about the new Camaro LS3 as well as the LS1, LS6, and LS9, the Mustang 4.6, 5.0, and 5.4 Modular, and the Chrysler 5.7 and 6.1L Hemi.

The Car Craft staff details aftermarket parts and solutions, engine wiring, exhaust, computer installation and chassis work to cover what is becoming the most popular modification you can make to your street machine.
